CALL FOR SPEAKERS

We invite you to submit presentations for the upcoming
Baltic Geospatial Information Technology Conference 2023.

This Call for Speakers closes on April 1, 2023.

**BALTIC
GEOSPATIAL
INFORMATION TECHNOLOGY
CONFERENCE**

Riga, Latvia
June 8-9, 2023

University of Latvia, House of Nature

The Baltic Geospatial Information Technology Conference (BGITC) is a unique cooperation among Estonia, Latvia, and Lithuania to organize a regional industry event that fosters cross-border collaboration in the field of geospatial information technology (GIT). Apart from exchanging experiences to expand knowledge and innovation, or exploring market growth opportunities, the goal is to build a common view and vision for the development of the GIT industry in the Baltic region.

The BGITC is an event open to anyone who is interested in GIT – be it students or researchers from universities, representatives from corporations, government organisations, and municipalities, entrepreneurs, etc.

Around 500 participants are expected to attend from all over Europe, - it is expected to be the largest industry event in the region.

The conference is organized by Latvia's GIS Association, the Estonian Geoinformatics Society, and the Lithuanian Cartographic Society in cooperation with our conference partners.

TOPICS

Here are some ideas for possible topics:

- New trends: IoT, indoor mapping, machine learning, drones, digital twins
- Data collection, data sharing, big data, data exploration platforms
- Analysis, processing and visualization of geospatial data
- Solutions for strategic industries (land management, crisis/disaster response, smart cities, population mapping, climate change, marine monitoring etc.)
- Sensors, remote sensing, laser-scanning, structure from motion
- Standards, interoperability, spatial data infrastructure, INSPIRE implementations.

If you think your potential presentation is not related to any of these topics, but may suit our conference, please apply anyway. If you seek inspiration from previous events, please visit <https://www.balticgitconf.eu>.
