## LVM GEO – commercial or open source technologies

Katrīna Amerika

**Rolands Rihters** 

Latvia's State Forests / LVMGEO

PLANTS • WOOD • RECREATION

Forest management company with the most GIS users per employee in the world\*

Geospatial technology platform and development team

We have been through a lot..

We have been through a lot..
of technologies and solutions

# LVMGEO PLATFORM

For asset management

To be

Or not to be

#### Commercial

#### Open source

#### Costly

Hard to maintain

Ready-made

Reliable

Long term investment

Existing IT infrastructure

Easy to customize

Hard to switch

Team's experience

No support

Habit

Previous investments

Security

Less expensive

What will others think

#### QGIS

# It's not white or black

End user doesn't even have to know what technology base is used

It's about solution not the technology

Our approach is custom and configurable ready-made platform interfaces that can work with mix-of base technologies

### It's not that complicated...

## LIVE DEMO

Let's hope it works..
