

Making Sense of the Data Data Analytics in Public Sector

June, 2023

3-4

Introduction

5-11

Data driven performance management

12-22

The plan

Edgars Indriksons

Head of Data

Prev. Data scientist

Data engineer

Data analysts

Riga Digital Agency

Previously ITC
(Riga City IT department)

1 year old 

**RIGA DIGITAL
AGENCY**

Findings in Riga City Council

- 🚫 No internal data analytics capacity
- 🚫 Practically no dashboards (BI)
- 🚫 Outdated data infrastructure
- 🚫 Expensive procurement
- 🤔 Too much Excel & nobody knows what's going on ?!

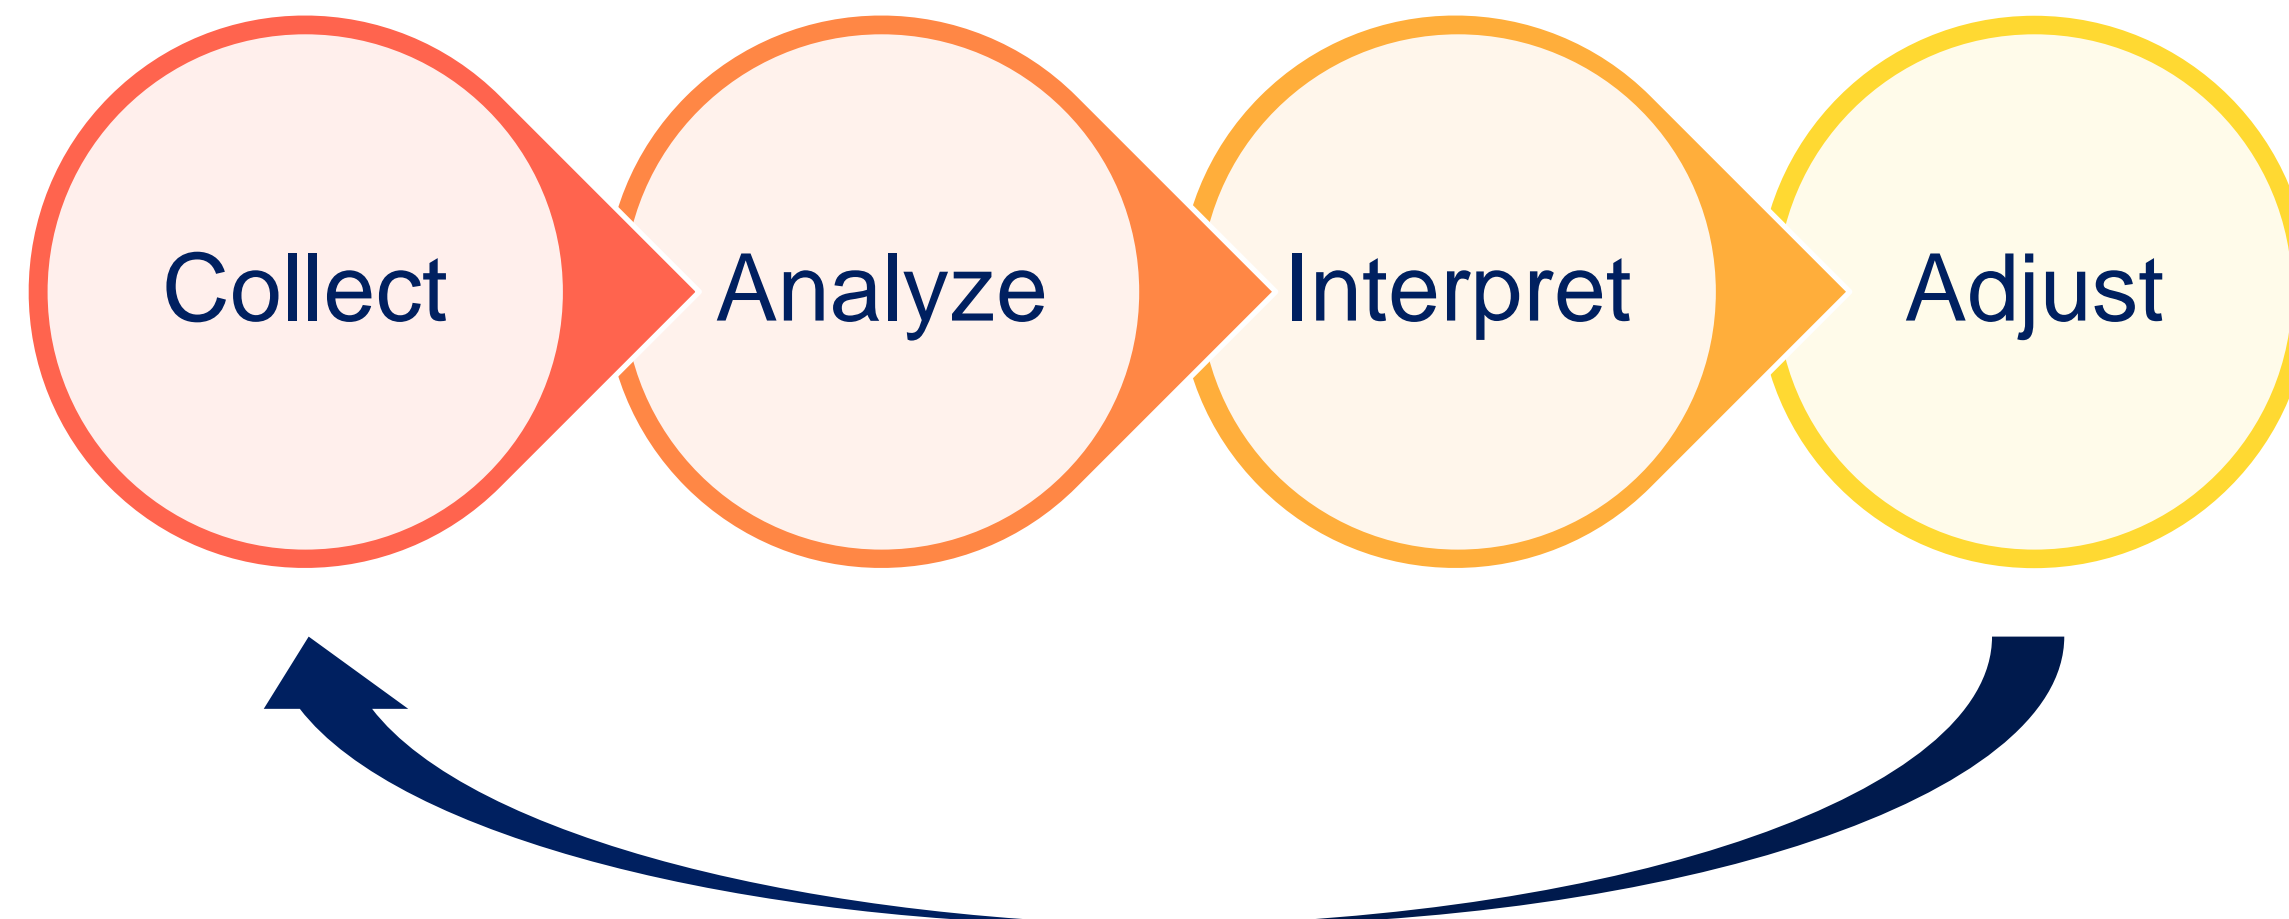

BUT, lots of people with lots of great ideas!

Jira backlog > 300 projects

Data-Driven Performance Management

«**High-frequency use of data and strategic engagement** between government agencies and service providers»

Vizualization

RDA
Data Analytics Center
of Excellence
Full in-house ownership

THE PLAN

Open Data

Citizen engagement is important!

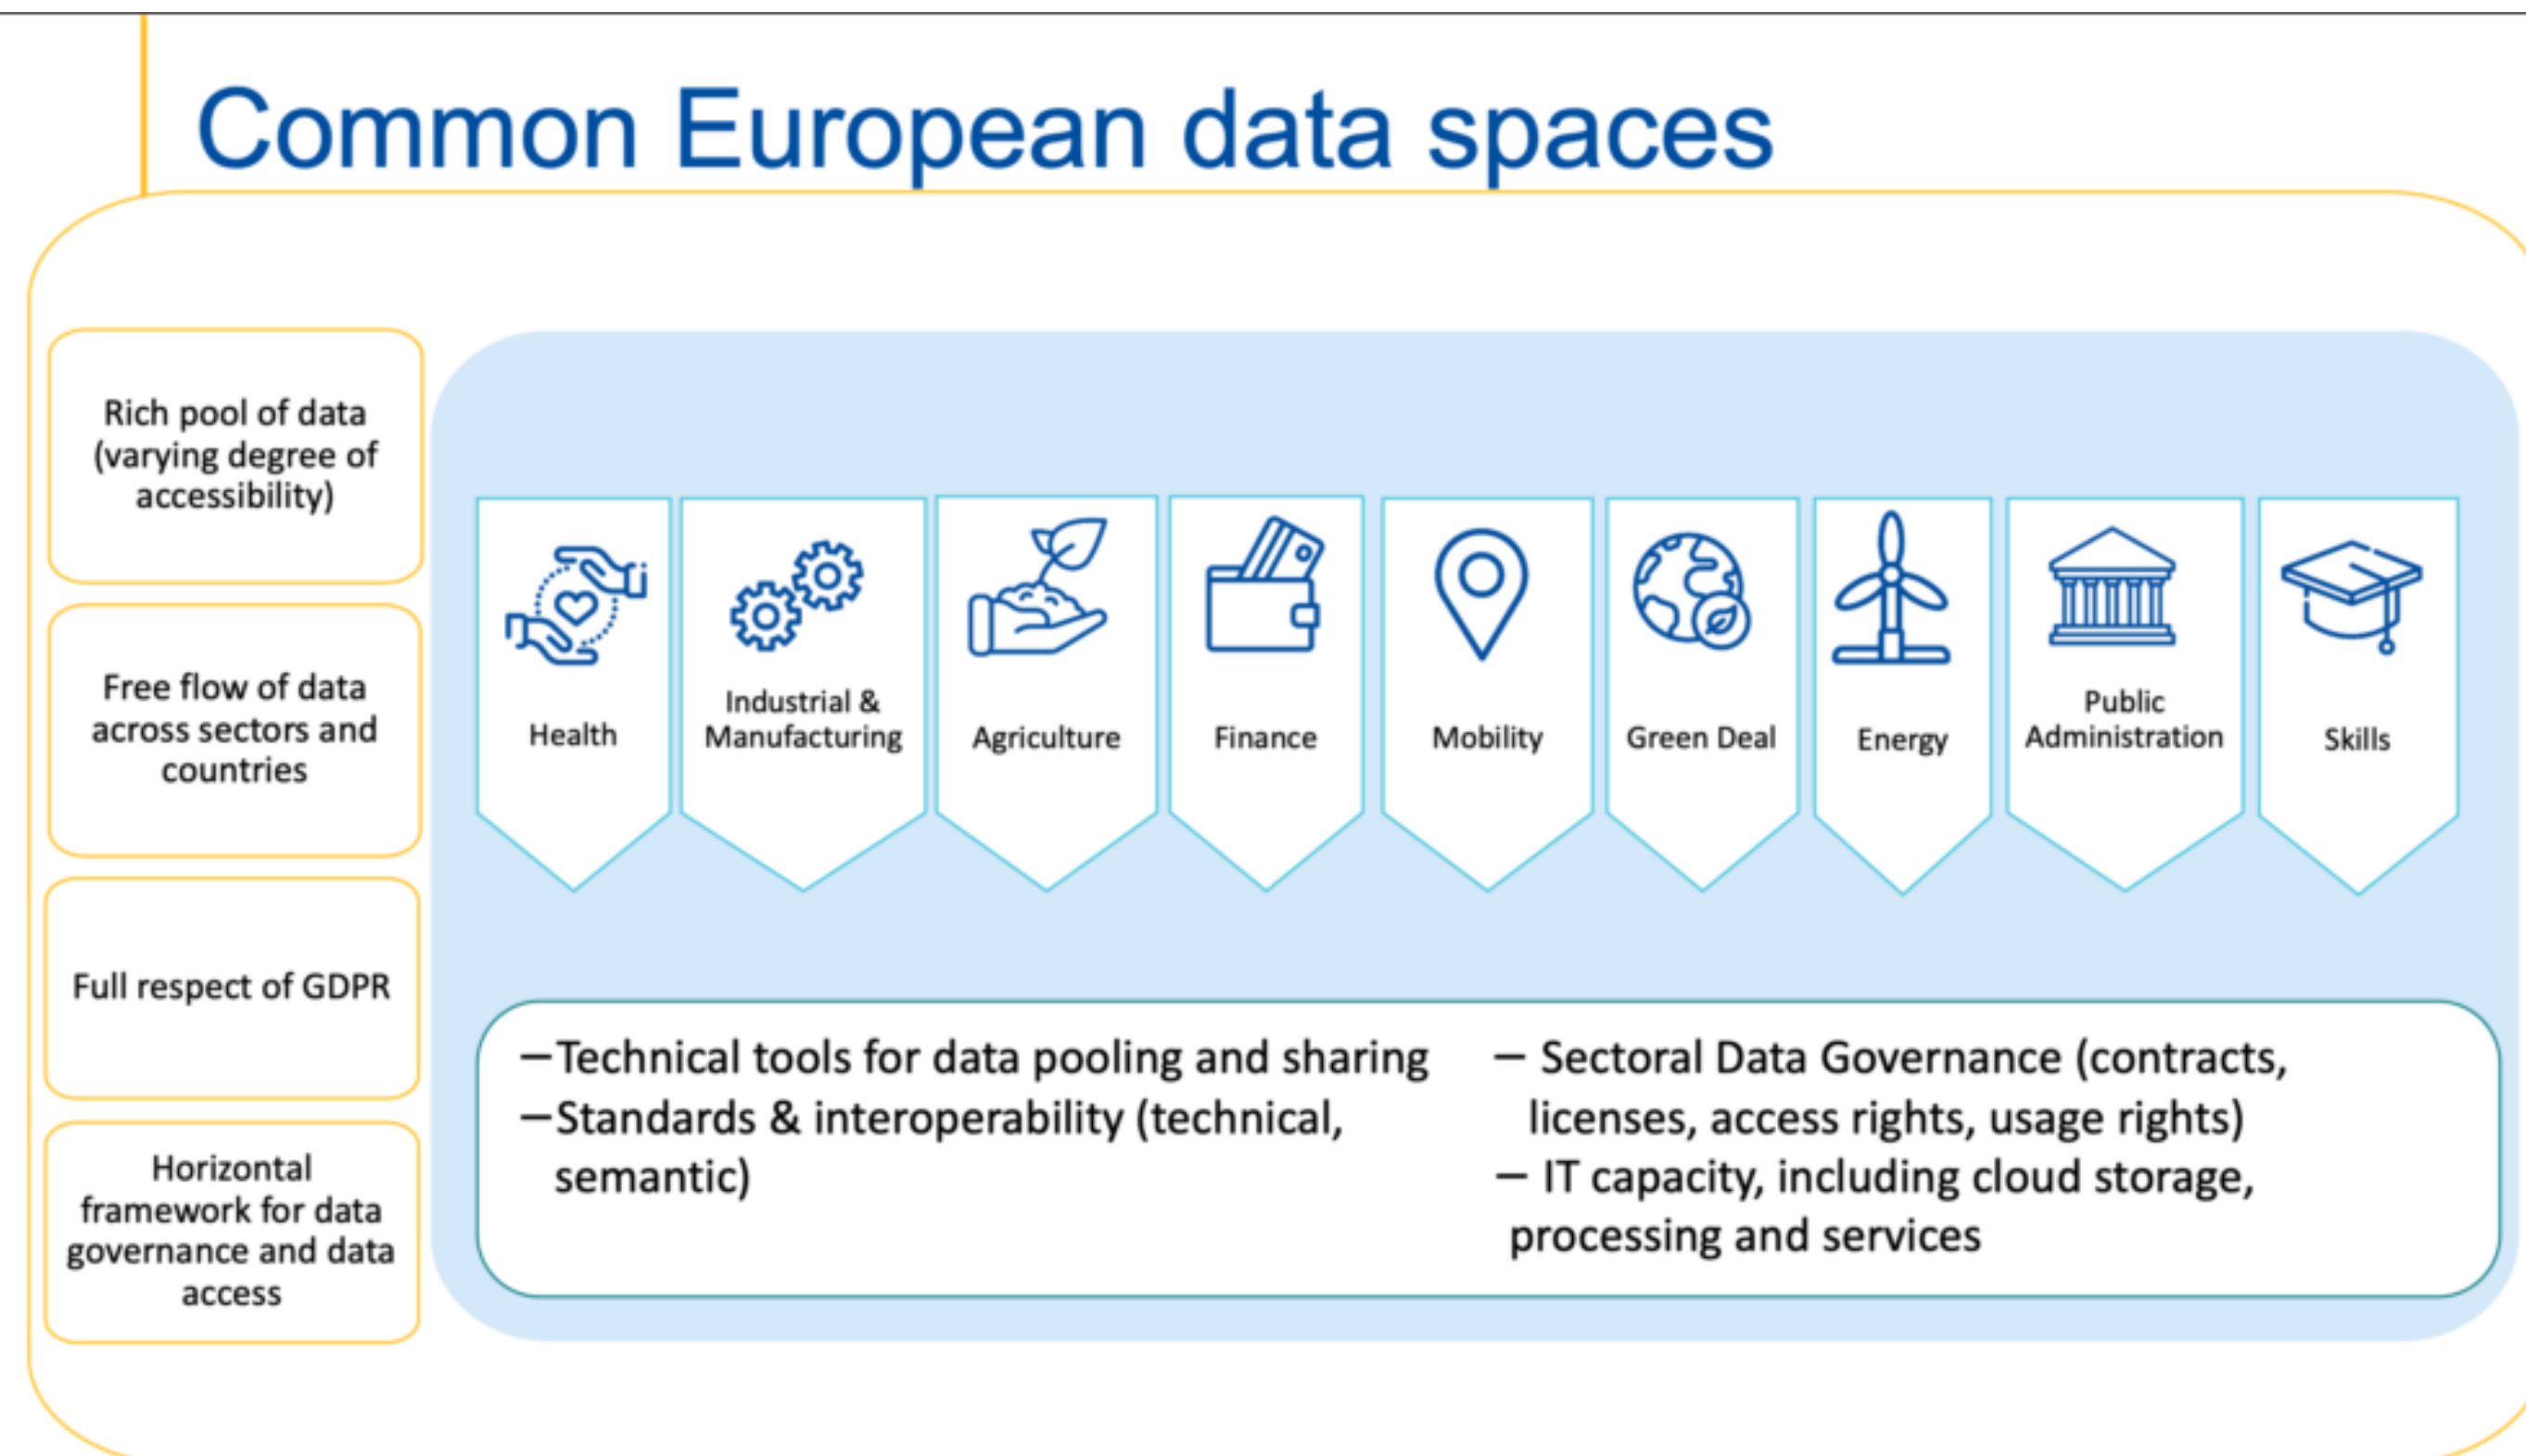

Riga open data portal concept

Open Data Spaces

Open data portal is just the beginning...

To encourage **engagement** we need clear data governance structure

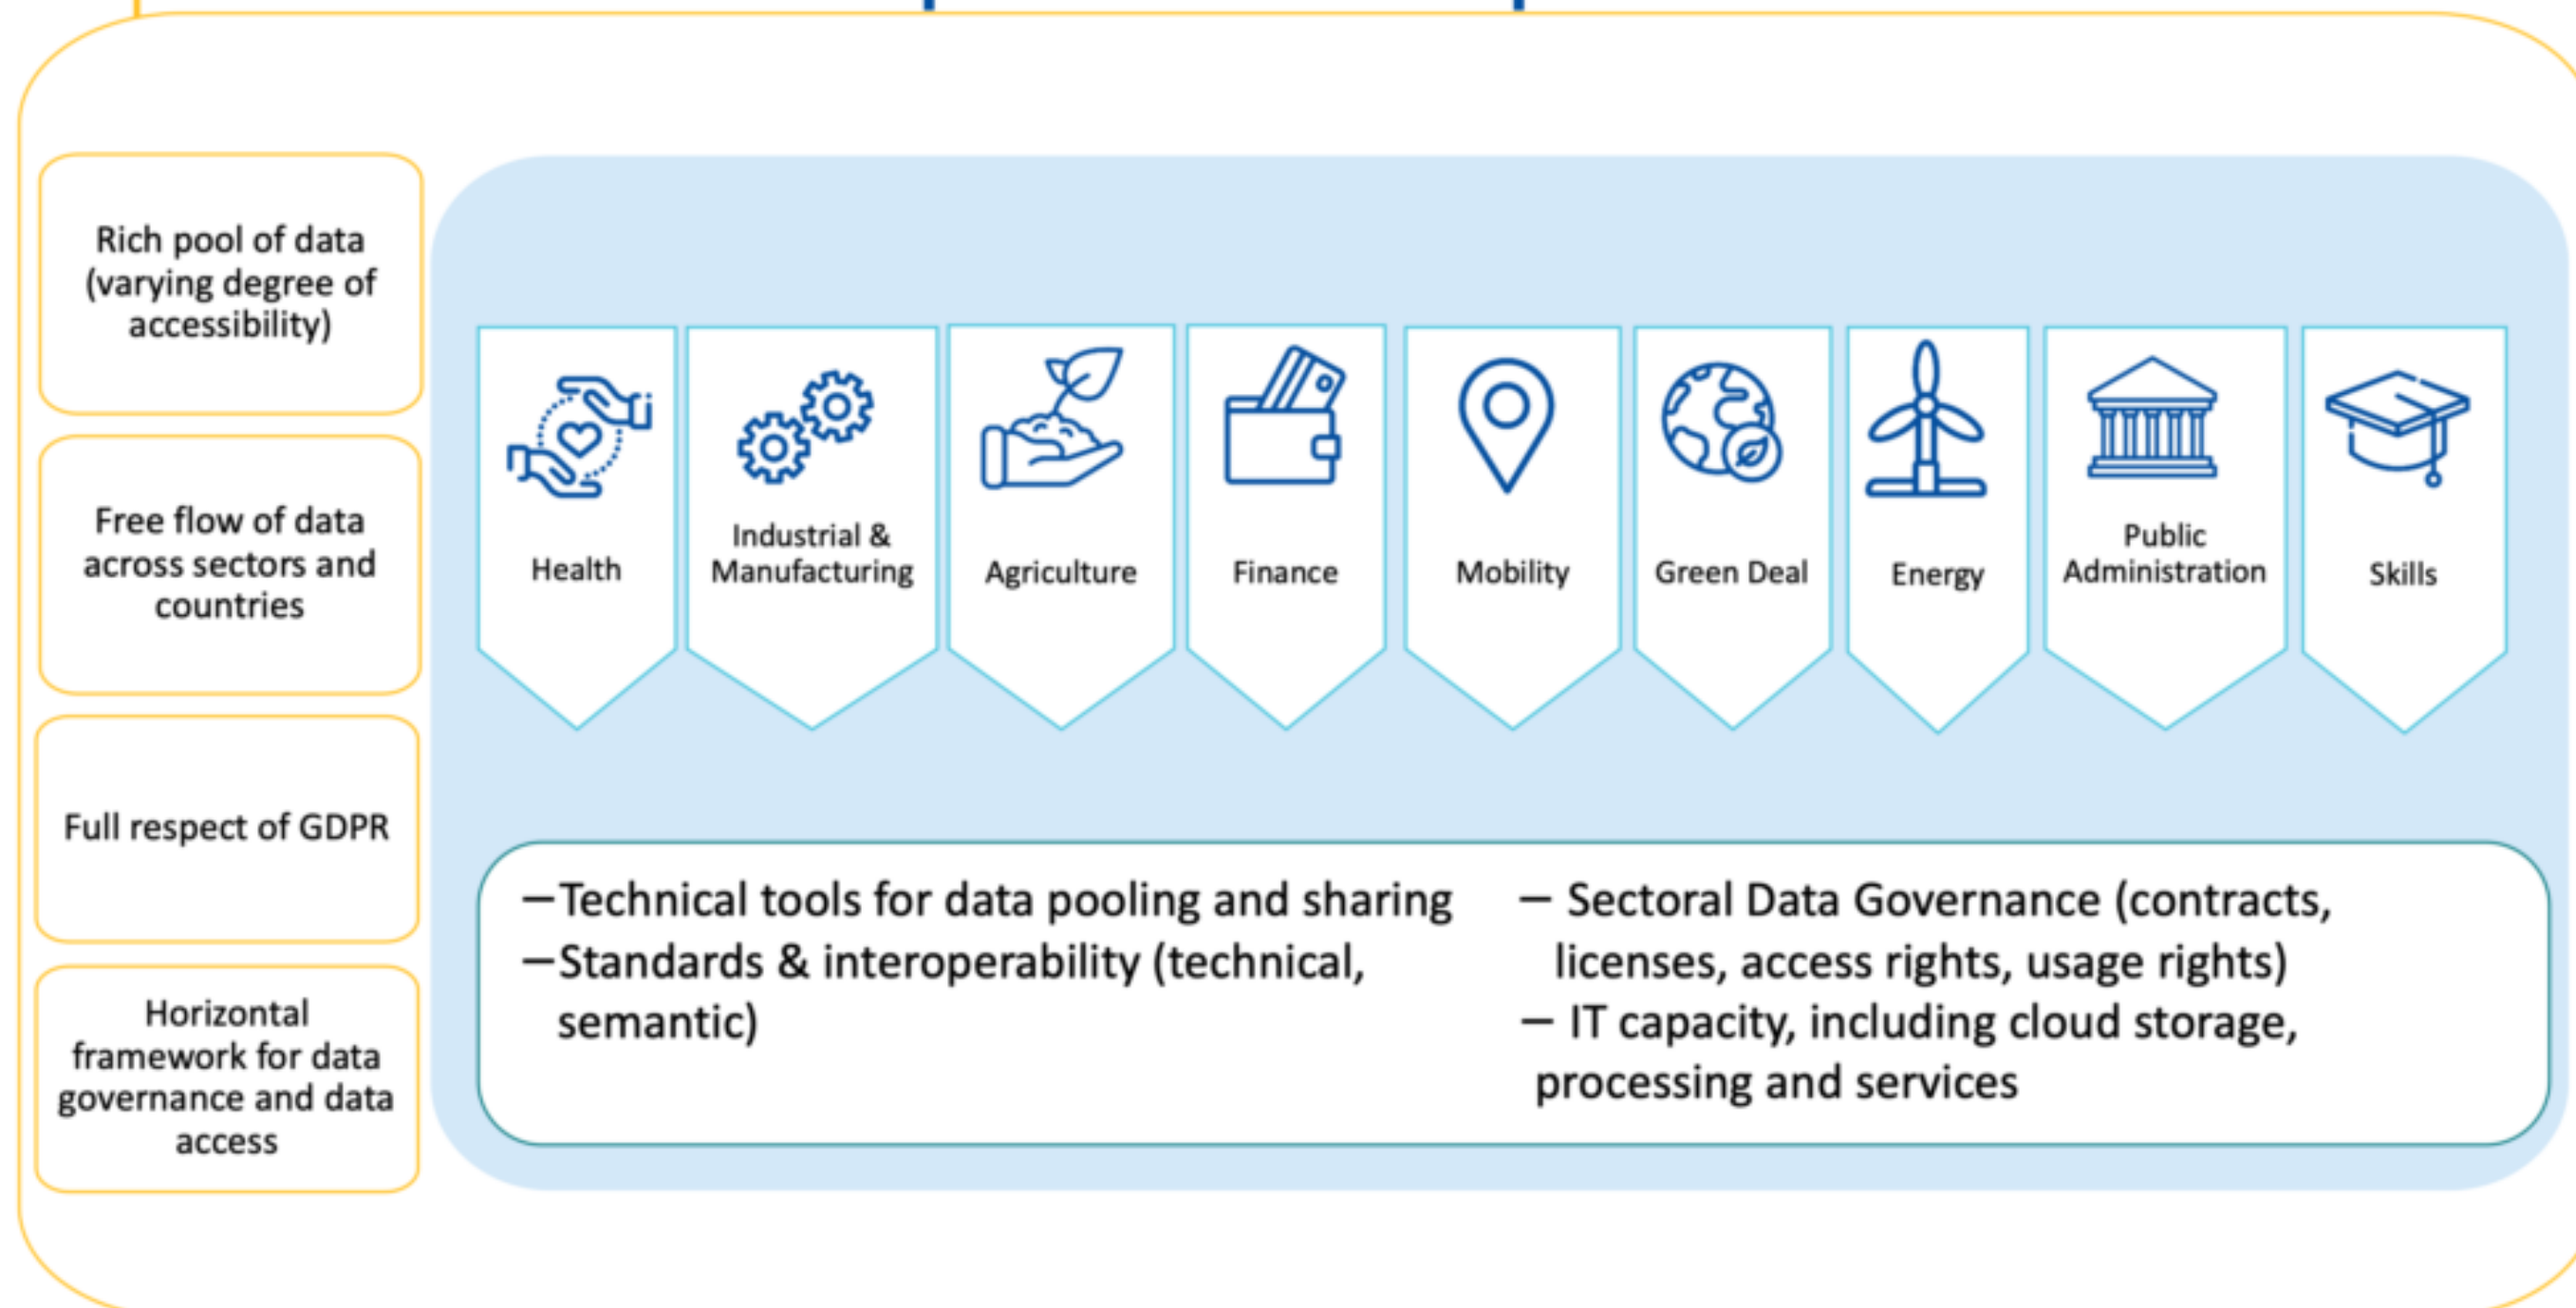

Open Data Spaces

Open data portal is just the beginning...

To encourage **engagement** we need clear data governance structures

Common European data spaces

THE PLAN

Expansion

**RIGA DIGITAL
AGENCY**

Not only for Riga

But also for other Latvian municipalities

For example – Riga region

We are just starting, so...
Wish us Luck!

P.S. We are hiring
